FLOW FORWARD

SECURING WATER SUPPLY THROUGH INNOVATION

As Orange County continues to navigate an increasingly complex water landscape, the need for forward-thinking solutions has never been greater. Regulatory pressures, growing regional demand, and climate variability are reshaping how we manage and sustain our most vital resource. Join more than 300 business professionals, elected officials, academics, and water leaders on September 25, 2026, as the OC Water Summit explores **Flow Forward: Securing Water Supply Through Innovation**.

ABOUT THE OC WATER SUMMIT

Now in its 18th year, the OC Water Summit is a premier, interactive forum that convenes hundreds of business professionals, elected officials, water industry representatives, and community leaders from across Southern California and beyond. Co-hosted by the **Municipal Water District of Orange County (MWD OC)** and the **Orange County Water District (OCWD)**, this event fosters meaningful dialogue around emerging water supply challenges, policy developments, infrastructure investment, and technological advancements that impact our economy, environment, and public health.

By sponsoring the Summit, your team plays a direct role in advancing sustainable water solutions and long-term reliability for Southern California. A variety of sponsorship opportunities are available to align with your organization's strategic priorities.
